### THEATRICAL AND OTHERWISE.

News and Comment of Stage Matters and Other Gossip.

Sir Henry Irving and Ellen Terry will be at the Grand, in Cincinnati, next week.

\*\*\*  
The dramatic rights of Miss Mary Johnson's novel "To Have and To Hold" have been sold to Charles Frohman. The novel will be dramatized at once and presented next season, but the star has not as yet been chosen. The dramatic rights were put up at auction and the bidding was very lively.

\*\*\*  
Joe Jefferson, the elder, will appear at the Lexington opera house Friday night, April 6th, in Rip Van Winkle. The prices are \$2, \$1.50, \$1, fifty cents. Mr. Jefferson only visits eight cities on his tour, and Manager Scott is to be complimented on securing this noted actor.

\*\*\*  
A good performance of that merry farce "Brown's In Town" was given Friday night at the Grand by a well selected cast. Mark Swan, author of the piece, did effective work in the leading part, and was ably seconded by Miss Jessie Mae Hall, a clever soubrette. Miss Affie Warner, a handsome actress, and Misses Fannie Midgely and Monica Lee, Charles Horn, Webster Cullison, Mannie Ward and G. H. Ebner, all gave effective support. Ebner's imitations received a hearty encore, as did also Miss Hall's songs.

\*\*\*  
Manager Borland has finally succeeded in canceling the "Quo Vadis" Co. which was booked to appear here Thursday night. Reports from Ohio towns indicate a poor performance. Manager Borland sent Mr. Benedict a copy of THE NEWS which mentioned the fact that Benedict was the weakest "star" before the public. Benedict immediately wrote back that he might be a "bum" actor, but that the public had paid lots of money to find it out—which did not alter THE NEWS' statement in the least. Mr. Sterling, Winchester, Georgetown and Cynthia will see "Quo Vadis" this week.

\*\*\*  
"The Little Minister," one of the most popular and chaste plays that has been produced for years, will be the attraction Friday night at the Grand. THE NEWS unhesitatingly commends "The Little Minister" as a pure and wholesome comedy without an offending line. That it will be produced by Charles Frohman's company is a guarantee that it will be well played. The part of "Babbie" will be taken by Miss Grace Heger, whom the New York Dramatic Mirror says is playing it very intelligently and effectively. The other parts will be in competent hands. The role of "Rob Dow" will be taken by Mr. Giles Shine, a well-known actor who first visited Paris with Julia Hunt, then with Lavinia Shannon, his wife. Mr. Shine has lately played with Viola Allen and Stuart Robson. There is a charm about "The Little Minister" that wins the interest of the theatre-goer instantly and leaves a pleasant remembrance of the play. Theatre-goers who appreciate a really good play produced by a capable company should not miss "The Little Minister." Seats go on sale to-morrow morning at Borland's.

## THE FLIRT.

There's a winsome little maiden,  
Up my way,  
Who's a-laughing and a-laughing,  
All the day.  
And who seeks to make me love her  
In a dozen ways or other,  
Till I have to run for cover,  
Far away.

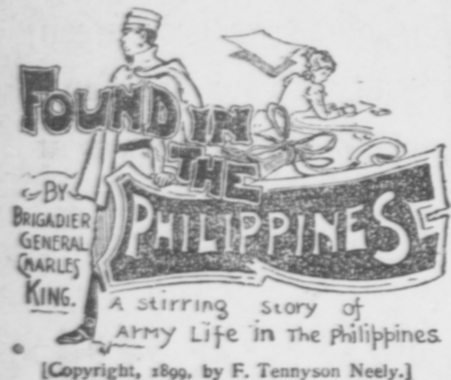

Bless my heart, but you must stop it,  
Winsome maid,  
Of the flirt who mixes philters  
I'm afraid.

And, besides, we cannot marry,  
Aye, no matter how we tarry,  
For you're just a little fairy,  
Baby maid.

But I love you very dearly,  
All the same,  
Even though I'm not acquainted  
With your name,  
And I'm sure that it would hurt me,  
Were you ever to desert me,  
So I guess I'll let you flirt me,  
Just the same.

You are four and I am forty—  
What an age!  
Your affections yet you cannot  
Even gauge;  
As I see you, hands so dirty  
With mud pies, but eyes so flirty,  
How I wish that you were thirty  
Years of age.

—Kenneth Herford, in Detroit Free Press.

CHAPTER VII.—CONTINUED.

The carpenter came, and he and two or three of the guard laid hold of one end of the plank after its nails were drawn, and with little exertion ripped it off the other posts. Then everybody held his breath a minute, stared, and a small majority swore. So far from its being open to cats, cans and rubbish, the space on that side was filled solid with damp, heavy sea sand—a vertical wall extending from floor to ground. Canker almost ran around to the opposite side and had a big plank torn off there. Within was a wall as damp, solid and straight as that first discovered, and so, when examined, were the other two sides provided. Canker's face was a sturdy, and the board gazed and was profoundly happy.

At last the colonel exploded: "By Jupiter! They haven't got away at all, then! There isn't a flaw in the sand wall anywhere. They must be hiding about the middle now. Come on, gentlemen," and around he trotted to the front door. "Sergeant," he cried, "get out all the prisoners—all their bedding—every blessed thing they've got. I want to examine that floor."

Most of the guardhouse "birds" were out chopping wood, and Canker danced in among the few remaining, loading them with bedding belonging to their fellows until every item of clothing and furniture was shoved out of the room. One member of the board and one only failed to enter with his associates—a veteran captain who read much war literature and abhorred Canker. To the surprise of the sentry he walked deliberately over to the fence, climbed it and presently began poking about the wooden curb that ran along the road, making a low revetment or retaining wall for the earth, cinders and gravel that, distributed over the sand, had been hopelessly designated a sidewalk by the owners of the tract. Presently he came sauntering back, and both sentries within easy range would have sworn he was chuckling. Canker greeted him with customary asperity.

"What do you mean, sir, by absenting yourself from this investigation, when you must have known I was with the board and giving it the benefit of the information I had gathered?"

"I was merely expediting matters, colonel. While you were looking for where they went in I was finding where they got out."

"Went in what? Got out of what?" snapped Canker.

"Their tunnel, sir. It's Libby on a small scale over again. They must have been at work at it at least ten days." And as he spoke, calmly ignoring Canker and letting his eyes wander over the floor, the veteran battalion commander sauntered across the room, stirred up a slightly projecting bit of flooring with the toe of his boot and placidly continued: "If you'll be good enough to let the men pry this up you may understand."

And when pried up and lifted away—a snugly fitting trap door about two feet square—there yawned beneath it, leading slantwise downward in the direction of the street, a tunnel through the soft yielding sand, braced and strengthened here and there with lids and sides of cracker-boxes. "Now, if you don't mind straddling a fence, sir, I'll show you the other end," said the captain, imperturbably leading the way, and Canker, half-dazed yet wholly in command of his stock of blasphemy, followed. At the curb, in the midst of a lot of loose hay from the bales dumped there three days before, the leader dislodged with his sword the top of a clothing box that had been thickly covered with sand and hay—and there was the outlet. "Easy as rolling off a log, colonel," said old Cobb, with a sarcastic grin. "This could all be done without a man you've blamed and arrested being a whit the wiser. They sawed a panel out of the floor, scooped the sand out of this tunnel, banked it solid against the weather boarding inside, filled up the whole space, pretty near, but ran their tunnel under fence and sidewalk, crawled down the gutter to the next block out of sight of the sentries, then walked away free men. Those three thieves who got away were old hands. The other men in the guardhouse were only mild offenders, except Morton. 'Course he was glad of the

chance to go with 'em. I s'pose you'll release my sergeant and those sentries now."

"I'll do nothing of the kind," answered Canker, red with wrath, "and your suggestion is disrespectful to your commanding officer. When I want your advice I'll ask for it."

"Well, Mr. Gray will be relieved to learn of this anyhow. I suppose I may tell him," hazarded the junior member, mischievously.

"Mr. Gray be— Mr. Gray has everything to answer for!" shouted the angered colonel. "It was he who telephoned for a carriage to meet and run those rascals off. Mr. Gray's fate is sealed. He can thank God I don't slap him into the guardhouse with his chosen associates, but he shan't escape. Sergeant of the guard, post a sentry over Lieut. Gray's tent, with orders to allow no one to enter or leave it without my written authority. Mr. Gray shall pay for this behind the prison bars of Alcatraz."

## CHAPTER VIII.

Social circles at West Point at long, rare intervals are shocked by a scandal, and at short ones, say every other summer—are stirred by some kind of a sensation, and the "Fairy Sisters" were the sensation of the year '97. They came in July; they went in September, and meanwhile they were "on the go" as they expressed it, from morn till late at night. Physically they were the lightest weights known to the hop room. Mentally, as their admirers in the corps expressed it, "either of them can take a fall out of any woman at the Point," and this was especially true of the elder—Mrs. Frank Garrison—whose husband was on staff duty at the far west. Both were slight, fragile, tiny blondes with light blue eyes, with lighter, fluffier hair, with exquisite little hands and feet, with oval, prettily shaped faces, and the younger, the maiden sister, had a bewitching mouth and regular, snowy dots of teeth of which she was justly proud. Yet, as has been previously said of Mrs. Frank, while the general effect was in the case of each that of an extremely pretty young girl, the elder had no really good features, the younger only that one. They generally dressed very much alike in light, flimsy gowns and hats, gloves and summer shoes all of dazzling white—sometimes verging for a change to a creamy hue—but colors, except for sashes and summer shawls, seemed banished from their wardrobes. They danced divinely, said the corps, and preferred cadet partners, to the joy of the battalion. They rode fearlessly and well, and had stunning hats and habits, but few opportunities for display thereof. They came tripping down the path from the hotel every morning, fresh and fair as daisies, in time for guard mounting, and at any hour after that could be found chatting with cadet friends at the visitors' tent, strolling arm in arm about the shaded walks with some of their many admirers until time to dress for the evening hop, where they never missed a dance, and on rainy days, or on those evenings, when there was neither hop nor band practice, they could be found, each in some dimly lighted, secluded nook about the north or west piazza or on the steps leading down to the "Chain Battery Walk," sometimes surrounded by a squad of cadet friends, but more frequently in murmured tete-a-tete with only one cavalier. In the case of Mrs. Frank no member of the corps seemed especially favored. She was just the same to every one. In this she was the same to every one. In this she was the same to every one.

stationed at the academy and was a man universally liked and respected—even very highly regarded. All of a sudden the news came back to the Point a few months after his return to his regiment that he was actually engaged to "Witchie" Terriss. Not on the heels of the rumor came the wedding cards—Lieut. Col. and Mrs. Terriss requested the honor of your presence at the marriage of their daughter Margaret to Lieut. Francis Key Garrison, —th U. S. Cavalry, at the Post Chapel, Fort Riley, Kansas, November —, 1894—all in Tiffany's best style, as were the cards which accompanied the invitation. "What a good thing for old Bill Terriss," said everybody who knew that his impetuosity was due to the exactions and extravagancies of his wife and "Witchie"—"And what a bad thing for Francis Garrison!" was the echo. His intimates knew that he had "put by" through economy and self-denial about \$2,000, the extent of his fortune outside of his pay. "She'll make ducks and drakes of it in the six weeks' honeymoon," was the confident prophecy, and she probably did, for, despite the fact that he had so recently rejoined the regiment, "Witchie" insisted on a midwinter tour to New Orleans, Savannah and Washington, and bore her lord, but not her master, over the course in triumph. To student of human nature—and frailty, that union of a faded and somewhat shopworn maid of 27 to an ardent and vigorous young soldier many moons the junior was easy to account for. One after another "Witchie" Terriss had had desperate affairs with half a dozen fellows, older or younger, in the army and was known to have been engaged to five different men at different times, and believed to have been engaged to two different men at one time. Asked as to this by one of her chums, she was reported to have replied: "Do you know, I believe it true: I had totally forgotten about Ned Colston before Mr. Forman had been at the post a week. Of course the only thing to do was to break with both and let them start fresh." But this Mr. Colston, whose head had been somewhat cleared by a month of breezy, healthful scouting, accepted only in part—that part which included the break. Forman had the fresh start and the walk over and held the trophy just two months, when it dawned upon him that Margaret loved dancing far more than she did him—a clumsy performer, and that she would dance

night after night, the lightest, daintiest creature in the hop room, and never have a word or a look for him who leaned in gloomy admiration against the wall and never took his eyes off her. He became jealous, moody, ugly-tempered and finally had the good luck to get his conge as the result of an attempt to assert himself and limit her dances. She was blithe and radiant and fancy free when Frank Garrison reached the post, a wee bit hipped, it was whispered, because of the failure of a somewhat half hearted suit of his in the far east, and the Fairy bounded into the darkness of his life and fairly dazzled him. Somebody had said that Frank Garrison had money.

There is no need to tell of the disillusion that gradually came. Frank found his debts mounting up and his cares increasing. She was all sympathy and regret when he mentioned it, but—there were certain comforts, luxuries and things she had always been accustomed to, and couldn't live without. Surely he would not have her apply to papa. No, but—could she not manage with a little less? He was willing to give up his cigars (indeed, he had long since done so) and to make his uniforms last a year longer—he who was in his day the most carefully dressed man at the Point. Well—she thought perhaps he ought to do that—besides—men's fashions changed but slowly, whereas women's— "Well, I'd rather be dead than out of style, Frank!"

And so it went.

But if she did not love her husband there was one being in whom her frivolous heart was really bound up—Nita—her "baby sister," as she called her, and when Terriss, the colonel, went the way of all flesh, preceded only a few months by the wife of his bosom, the few thousands in life insurance he had managed to maintain went to the two daughters. Not one penny was ever laid out in payment of the debts of either the father or husband. Nita was sent to an extravagant finishing school in Gotham, and along in May of the young girl's graduating year, blithe little Mrs. Garrison arrived, fresh from the far west, and after a few weeks of sight-seeing and shopping the sisters appeared at the Point, even half-mourning by this time discarded. Thirteen years difference was there in the ages of the Fairy Sisters, and not a soul save those who knew them in former days on the frontier would have suspected it. Mrs. Frank in evening dress didn't look over 20.

One lovely evening early in August, just about the time that Cadet Capt. Latrobe began to show well to the front in the run for the prize, the two

sisters had gone to their room at the hotel to dress for the hop. It was their custom to disappear from public gaze about six o'clock, and when they came floating down the stairs in flimsy, diaphanous clouds of white, the halls were well filled with impatient cavaliers in the natty cadet uniform, and the women waiting to see. Then the sisters would go into the dining-room and have some light refreshments, with a glass of iced tea—and no matter how torrid the heat or how flushed and dragged other women might look, they were inviting pictures of all that was ever fresh, cool and fragrant. The two fluff blonde heads would be huddled close together a minute as they studied the bill of fare, and virtuous matrons at other tables, fanning vigorously, would sniff and say: "All for effect. They know that supper bill by heart. It never changes." All the same, at the bottom of this public display of sisterly devotion and harmony and in spite of occasional tiffs and differences, there was genuine affection on both sides, for as a child Nita had adored Margaret, and there could be no doubting the elder's love for the child. Some regimental observers said that every bit of heart that eldest Terriss girl had was wrapped up in the little one. Neither girl, even after Margaret's marriage, would listen to a word in disparagement of the other, but in the sanctity of the sisterly retreat on the third floor of the old hotel there occurred sometimes spirited verbal tilts that were quite distinctly audible to passers-by in the corridor, provided they cared to listen, which some of them did. On this special August evening Mrs. Frank was in an admonitory frame of mind. They had known Mr. Latrobe barely three weeks, and yet as Mrs. Frank was sauntering around a turn in Flirtation Walk, leaning on the arm of the cadet adjutant, there in the pathway right ahead stood Nita, a lovely little picture with downcast eyes, and "Pat" Latrobe bending over her with love and passion glowing in his handsome face, pleading eagerly, clinging fervently to both her tiny white-gloved hands. Mrs. Garrison saw it all in the flash of a second, the adjutant not at all, for with merry laughter she repeated some words he had just spoken as though they were about the wittiest, funniest things in the world, and looked frankly up into his eyes as though he were the best and brightest man she had met in years—so his eyes were riveted, and the tableau had time to dissolve. All the same that sight gave Mrs. Garrison rather more than a bad quarter of an hour. She was infinitely worried. Not because "Pat" Latrobe had fallen desperately in love with her charming little sister—that was his lookout—but what—oh, what might not happen if the charming little sister were to fall in love with that handsome soldier boy. At all hazards, even if she had to whisk her away tomorrow, that had to be stopped, and this very evening when they went to their room Margaret spoke.

## A SUCCESSFUL FARMER.

Within three miles of the town going eastward is the farm of Mr. W. Creamer, one of the municipality's largest and most prosperous mixed farmers. Mr. Creamer came to this country in 1880 and settled on a portion of the land which comprises his present enormous farm of 1,280 acres. In common with many others of a similar period he experienced all the hardships and difficulties common to the absence of railway and market facilities. In no wise daunted, by energy, industry and indomitable will he has been able to surmount all obstacles and has achieved an unparalleled success, and is known throughout the district as one of its preeminent farmers. His operations extend over 1,280 acres, two sections (the thought alone of so much land makes the eastern farmer dizzy); 800 acres of this is broken and the remainder is excellent pasture land and wood. This harvest he took off a crop of 500 acres of wheat and 200 of other grains. Four hundred acres are plowed and ready for wheat next spring. Mr. Creamer is, as has been stated, a mixed farmer of no mean proportions, having at the present time 40 horses, 60 head of cattle and 50 pigs. The most modern farm buildings are found on his premises, the main building being a barn 55 feet square on a stone foundation containing stabling for 16 horses and a large number of cattle. The loft is stored with 29 loads of sheaf oats for feed and tons of hay; there is also a cutting box. Another building of large dimensions is the granary, in which after teaming large quantities to market he still has stored 3,000 bushels of wheat. A crushing machine is in the building. There are a number of lesser buildings containing chicken house, pig pens and cattle sheds. The farm residence is a handsome frame structure of ample proportions, in connection with it is a wood shed. The water supply is unexcelled; besides house supply there is a well in the stables and a never failing spring situate in a bluff, which never freezes. Surrounded by a thick bluff of poplars, extending in a semi circle to the west, north and east, the winter storms are broken and accumulation of snow unknown. Added to his farming operations, Mr. Creamer conducts a threshing outfit for the season. His success is only one instance of what can be accomplished in Western Canada.—Baldur (Man.) Gazette, Nov. 16th, 1899.

Thousands are going to Western Canada this year to take advantage of the free homestead laws that are being offered by the government.

## MAY BE STORY OF THE MAINE.

Spanish Cipher Cablegram Found by an American Soldier in Manila.

"Blue tape" is the expression which might properly be applied to Spanish official circulations. C. Leland, a young man from Bismarck, N. D., came to Chicago a few days ago to join a regiment which he had heard was being recruited there for service in the Boer army. He carried a little bundle of blue paper which might reveal the secret of the Maine explosion in Havana harbor if the writing on it could be read. It purports to be a dispatch in cipher from a Spanish official in Havana to Gov. Gen. Augusti at Manila. It is dated February 18, 1898, and written in Spanish cipher code on a narrow ribbon of light blue paper, about 100 feet long. The paper is wound in a circular coil and makes a bunch six inches in diameter. There is nothing on the paper to establish its genuineness, says the Inter Ocean.

Young Leland got it from Charles Jackson, a soldier in a South Dakota regiment that served in the Philippines. When the American army took possession at Manila this paper, with a great many other official documents, it is said, was found in a safe in the governor general's office. Gen. Otis ordered them all burned, but Jackson rescued the cipher cablegram from the pile as a souvenir. He was killed soon afterward, but previous to that had mailed the paper to Leland.

His operations extend over 1,280 acres, two sections (the thought alone of so much land makes the eastern farmer dizzy); 800 acres of this is broken and the remainder is excellent pasture land and wood. This harvest he took off a crop of 500 acres of wheat and 200 of other grains. Four hundred acres are plowed and ready for wheat next spring. Mr. Creamer is, as has been stated, a mixed farmer of no mean proportions, having at the present time 40 horses, 60 head of cattle and 50 pigs. The most modern farm buildings are found on his premises, the main building being a barn 55 feet square on a stone foundation containing stabling for 16 horses and a large number of cattle. The loft is stored with 29 loads of sheaf oats for feed and tons of hay; there is also a cutting box. Another building of large dimensions is the granary, in which after teaming large quantities to market he still has stored 3,000 bushels of wheat. A crushing machine is in the building. There are a number of lesser buildings containing chicken house, pig pens and cattle sheds. The farm residence is a handsome frame structure of ample proportions, in connection with it is a wood shed. The water supply is unexcelled; besides house supply there is a well in the stables and a never failing spring situate in a bluff, which never freezes. Surrounded by a thick bluff of poplars, extending in a semi circle to the west, north and east, the winter storms are broken and accumulation of snow unknown. Added to his farming operations, Mr. Creamer conducts a threshing outfit for the season. His success is only one instance of what can be accomplished in Western Canada.—Baldur (Man.) Gazette, Nov. 16th, 1899.

Thousands are going to Western Canada this year to take advantage of the free homestead laws that are being offered by the government.

Some folks think that honesty, in moderation, is the best policy.—Puck.

Tom, you ask me to be your wife, to give you my heart, my all. Think well of what you say, and then tell me if you will grant me one small favor.

"Then promise me that you will never smoke another cigar as long as you live."

"I promise, dear."

"And it doesn't cost you a pang?"

"Not a pang. I'd rather smoke a pipe any day."—Collier's Weekly.

## AMERICAN ENTERPRISE.

The pastor of the First Presbyterian church at Pine Bluff, Ark., was telling his congregation of his travels in the Holy Land, and closed his remarks with this incident, illustrating American enterprise: "When at 'Jacob's Well' he drew therefrom with his own hands a bucket of water; after doing so and looking at the tin bucket, he found it was a lard bucket with the name of 'Swift and Company' branded on same, which was the same as he had seen in Pine Bluff many times."—Kansas City Gazette.

## An Overworked Bird.

Dorothy—Our Audubon club had a lovely meeting last afternoon.

Papa—What did you do, dear?

"Oh, we passed an enthusiastic resolution appointing a committee to take immediate steps—right off, you know—for the protection of the cuckoo."

"The cuckoo?"

"Yes, papa; in the cuckoo clock, you know."—Detroit Free Press.

## Notable Term of Court.

Judge Cantrill convened the April term of the Franklin Circuit Court yesterday morning, and on account of the trial of persons suspected of being implicated in the Goebel assassination it will prove a notable and history making term.

Judge Cantrill told a leading Paris attorney last week that he would not hold court if there were soldiers in Frankfort.

Hazelip, of Lakeland; Henry Yountsey, of Frankfort; J. L. Sutton, of Williamsburg; Harland Whittaker, of Butler county; Silas Jones, of Whitley county, and Capt. John Davis, of Knox county. Warrants are also out for ex-Secretary of State Charles Finley, Capt. John L. Powers, of Knox county, and "Tallow Dick" Combs, colored, all of whom, except Combs have not been arrested.

The grand jury is composed of eight Goebel Democrats, one Populist, one Brown Democrat and two Republicans. They will take up the Goebel tragedy to-day.

## GLUTEN FEED

For cattle, sheep and mules. This highly recommended feed contains twice as much fat and muscle forming material, pound for pound, as corn or bran. (So says the Agricultural Experiment Station.)

This feed is bulky and is the very thing to feed with shelled corn to prevent stock from eating corn too fast. We will sell it much cheaper than corn will cost. Put up in long sacks, 120 lbs. to a sack. Several cattle and mules feeders in this county are using this feed and are highly pleased with it.

There will be something on display to suit the ultra fashionable and also those of more quite tastes. A general invitation is extended to the ladies.

## Two Small Fires.

As fires in Paris always come in bunches of three, the distillery fire was quickly followed by two more.

The second one was an alarm from Walker avenue, which proved to be only a burning chimney in a negro cabin near the Colored City School. The alarm was sent in Sunday afternoon about four o'clock and drew a large crowd of people.

The third fire occurred yesterday morning, being a small blaze on the roof of Mrs. S. M. Willmoth's residence on Second street. The blaze was easily put out, and the damage was small.

In Judge Purnell's court yesterday Garrett Claypole was ordered sent to the Kentucky School of Reform, at Lexington.

## Rigid Vaccination Measures.

The Board of Health order of house-to-house vaccination is being strictly enforced. One white family in "Sandy Bottom" refused to be vaccinated and the physician had to take an officer along to have the order enforced. Persons who refuse to be vaccinated may be fined by the authorities.

The police have been instructed to stop certain colored persons and ask if they have been vaccinated, and to have the order enforced if the persons have not submitted.

## Important Days in Paris.

FRIDAY and Saturday of this week will be important days in Paris, being the dates of Mrs. Corne Watson's display of Easter hats and bonnets. The ladies who call—and all are invited—will view the choicest handiwork of the noted French designers besides the best things made by Americans. The flower trimmings are more beautiful than ever this season. These events will prove a genuine pleasure to the ladies who attend. Remember the days—Friday and Saturday.

## G. G. White Distillery Burns.

SATURDAY morning about five o'clock the machinery building of the G. G. White distillery was completely destroyed by fire. The fire was probably caused by a small leak in the "doubler" which was located over the boiler. The whiskey in the doubler is almost as inflammable as alcohol, and a few moments after the fire was discovered there was an explosion which threw burning whiskey over the building.

The fire department responded quickly and succeeded in saving by remarkably good work the large fermenting room and grain building, both frame buildings, the office, dryer, and other buildings.

There were ninety-five thousand gallons of beer in the fermenting room. It is being hauled to the Paris Distilling Company's plant to complete the process of converting it into whiskey.

Manager Boldrick thinks that the plant will be rebuilt this summer, with many modern improvements added. Messrs. J. B. Watlen, of Louisville, Benj. Farmer, and Mr. Wilmore, members of the Kentucky Distilleries and Warehouse Company, which own the G. G. White plant, were here Saturday and yesterday to visit the plant.

The loss will reach thirty thousand dollars, and was insured for twenty-two thousand.

The plant had a capacity of 600 bushels per day and gave employment to thirty men.

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centred and made of purest material, set in frames of the highest elasticity and consequently of greatest durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy Imperial spectacles of a reliable, skillful dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.

Next visit—Thursday, April 12, 1900. Hello, 170.

## LEGAL PROCEEDINGS.

Case of the Suspects Go Before the Franklin Grand Jury.

No Indictments Expected to Be Returned Before the Latter Part of the Week—Change of Venue Will Be Asked For.

Frankfort, Ky., April 2.—The convening of the April term of the Franklin circuit court, with Judge Cantrell sitting, marks the beginning of the final legal proceedings against those charged with complicity in the assassination of the late William Goebel and on this account makes it the most important in the history of criminal trials in this state in many years.

The first session of the court will be taken up mainly with preliminaries. Judge Cantrell's charge to the grand jury, always vigorous and comprehensive, is looked forward to with more than ordinary interest.

The grand jury will probably get in working order Tuesday and of course the assassination case will be the first matter taken up. It is understood that Commonwealth's Attorney Franklin, who will conduct the prosecution on the part of the state, has had subpoenas issued for numerous important witnesses in rotation and others will be issued as soon as the court gets down to work.

The names of the suspects who have already been arrested and whose cases have been referred to the grand jury for investigation are Republican Secretary of State Caleb Powers, Judge W. L. Hazelip, of Lakeland; Henry Youtsey, of Frankfort; J. L. Sutton, of Williamsburg; Harland Whittaker, of Butler county; Silas Jones, of Whitley county, and John Davis, of Frankfort. Warrants are also out for ex-Secretary of State Charles Finley, Capt. John L. Powers, of Knox county, and "Tallow Dick" Combs, colored, who have not yet been arrested.

It is not probable any indictments will be returned before the latter part of the week at the earliest, and if the prosecution makes good its claims, the investigation will involve a large number of others against whom indictments will be returned.

The general impression prevails that none of the trials will come up at the present term and it is understood that the defense probably in every case will move for a change of venue to some other county on account of the heated state of public feeling here.

Frankfort, Ky., April 1.—W. H. Cullen, charged with being an accessory to the murder of William Goebel, said Saturday:

"I have never confessed. I know nothing to confess. I know of nothing that implicates republicans. I told Col. T. C. Campbell and his associates about one little matter that I can't explain, but of this thing that puzzles me I can make no reference until the time comes."

Col. Campbell and Arthur Goebel were up and about early Saturday. It is supposed they are making preparations for the work before the grand jury.

Judge Moore declines to state how many warrants were issued at the same time with the "Tallow Dick" Combs warrant. Combs is charged with being an accessory before the fact to the murder of Goebel.

Washington, March 29.—The President has informed Kentucky republicans that while he can not interfere in Kentucky affairs to the extent of disarming the militia of either faction, he is willing so far as he can legitimately do so, to recognize the republican officials of that state as the facto officials. He told them in the same connection that he would give directions that mail addressed to an official by title only, as to "The Governor" or "The Secretary of State," should be delivered to the republicans holding these offices, and not to the democrats.

Frankfort, Ky., March 31.—Ex-Chief Justice James H. Lewis, chairman of the committee selected by the legislature to have charge of the Goebel reward fund, Friday made the following statement concerning the story sent out from Winchester Thursday that Attorney James Andrew Scott had proposed to the relatives of H. E. Youtsey to give him a portion of the reward money for a confession of the details of the conspiracy to assassinate Wm. Goebel.

"The money appropriated by the legislature," said he, "to be used in running down the assassins of Gov. Goebel and bringing them to justice will be distributed as provided at the first meeting of the reward commission, so much for the assassin and so much for the conviction of each accessory."

The preliminary work is in the hands of Commonwealth's Attorney Franklin, and no private citizen has authority from Mr. Franklin or from the commission to offer rewards for confessions of alleged accessories."

No Damage From Frost.

Atlanta, Ga., April 2.—Dispatches from different parts of the state do not indicate any serious damage by Saturday and Sunday night's frosts which were felt as far south as Columbus. At Adairsville, in North Georgia, 75 per cent of the late fruit in the valley was killed.

Will Meet in Chicago Next Year.

St. Louis, April 2.—The North Central Association of Colleges and Secondary Schools adjourned to meet in Chicago on the last Friday in March, 1901.

## BROOKS' MURDERERS SETTLED

The Chinese Government Ends the Controversy Arising Over the Killing of a Missionary.

Pekin, April 2.—The Chinese government has "settled" the controversy arising out of the murder on December 3 last of Rev. Mr. Brooks, of the church missionary society on the following terms: Two of the murderers will be beheaded; one imprisoned for life, one for ten years, another for two years; a memorial chapel will be erected upon the site of the murder and a tablet will be placed in Canterbury cathedral, England, at the expense of the Chinese government.

Rev. Mr. Brooks at the time of his murder was stationed at Ping Yin, in the province of Shan-Tung. He was captured in that vicinity and killed by members of the seditious society known as "Boxers," who had been very active in destroying villages and slaughtering native Christians. The governor of the province has dispatched a force of cavalry to the scene of disturbance, but the soldiers arrived too late to save the life of Mr. Brooks.

## LIVE STOCK CENSUS.

The Productive Capacity of the Entire Mass of Cattle or Sheep for Any Particular Season.

Washington, April 1.—The coming census of live stock will undertake three new features; classification by age and partly by sex and use; a count of pure-blood animals, and an enumeration of stock not on farms and ranges, these last amounting to several million head. The age classification was undertaken in response to a demand of the stock men, who felt that the mere enumeration of animals regardless of age and use was about as valueless as a count of inhabitants without distinction of age, sex, color and occupation. They expressed a desire to secure a basis for calculating the approximate number of live stock and the productive capacity of the entire mass of cattle or sheep for any particular season, and the schedules have been prepared to meet their wishes.

## SCHOOL BUILDING BURNED.

Two Firemen Killed, Three Others Injured and Two Schoolboys Were Badly Hurt.

Owosso, Mich., April 2.—Two firemen were killed by falling walls in a fire which destroyed the Central high school of this city. Three other firemen were seriously injured and two pupils of the school were quite badly hurt.

The fire caught from a burning chimney, which spread through the hot air ducts to all parts of the building. The school house was on a hill and the engines were unable to furnish sufficient force to render the fire department much use. A portion of the walls fell unexpectedly, carrying Firemen Ross and Tucker down to the basement with the debris. The other firemen who fell with the walls were badly bruised and crushed, but are expected to recover. The building was valued at \$125,000; insurance, \$46,000.

## TWO MONTHS EXTRA PAY.

New York and Iowa Soldiers Will Be Benefitted by an Amendment to Army Appropriation Bill.

Washington, April 1.—Men who served in the 22nd New York regiment and in Roosevelt's Rough Riders will receive two months extra pay from the government, as the result of an amendment which Representative Clayton, of New York, was instrumental in adding to the army appropriation bill.

These two regiments and two Iowa batteries were mustered out of the service before the general law went into effect giving the volunteers extra pay. The amendment will place these organizations on the same footing as all other volunteers in the Spanish war.

## Gen. Hernandez Defeated.

Port of Spain, Trinidad, April 1.—The Venezuelan government officials report that severe fighting occurred near the city of Bolivar on March 23, Gen. Penabaz, commanding the government troops, it is announced, defeated Gen. Hernandez. His forces killed 223 of the revolutionists, took 80 prisoners and captured a large quantity of arms and ammunition. "he government loss was small."

## Turkey Settles Russia's Demands.

Constantinople, April 2.—The Ottoman government has addressed a note to the Russian embassy declaring that in the event of the Porte not constructing railway lines in the Black sea districts bounded by railways already conceded to others then concessions will be granted to Russia. It is considered that the Porte in this way settles the Russian demands in the premises.

## TOTAL SOLAR ECLIPSE.

All the Phases and Different Branches of the Work Will Receive Attention by the Astronomers.

Williams Bay, Wis., April 1.—The Eclipse committee of the Astronomical and Astrophysical Society of America issued Saturday a circular letter to all astronomers who are intending to make systematic observations of the total solar eclipse on May 28. This letter solicits co-operation on the part of all observers, that the best possible results may be obtained.

No eclipse was ever prepared for as carefully as this. The eclipse committee is perfecting a thorough organization, so that all phases and different branches of work will receive attention.

A party will go from the Lick Observatory to some Georgia point for the purpose of photographing the corona. A party from the Smithsonian Institution will search for bright lines in the infra-red spectrum of the corona, while a party from the British Astronomical association will probably be located at Wadesboro, N. C., (?) for general observations. Prof. Crew, of Northwestern University, will photograph the spectrum of the Chromosphere, while Prof. Upton, Brown University, will make both visual and photographic observations.

A party from the Massachusetts Institute of Technology will give special attention to the time of contacts and a party from Johns Hopkins University will photograph the spectrum of the Chromosphere with spectroscopes of great power.

Prof. W. H. Pickering, of the Harvard College Observatory, will search for an intra-mercurial planet and expeditions will be sent from the United States naval observatory, the Goodwill, Chabot and Flower observatories, the University of Virginia and several other institutions.

There will be no other total eclipses in this country until 1918.

## EXPLORERS RETURN.

The Borchgrevink Expedition Reports Having Located the South Magnetic Pole.

Wellington, New Zealand, April 2.—The exploring steamer Southern Cross, bearing Mr. C. E. Borchgrevink and the survivors of the South Polar expedition fitted out in 1898 by Sir George Newnes, of London, has just arrived here. Mr. Borchgrevink reports that the magnetic pole has been located. Mr. N. Hansen, one of the geologists who started with the expedition, died on the voyage.

The Borchgrevink expedition left Hobart, Tasmania, for the Antarctic region on December 19, 1898. During the latter part of February, 1899, the members landed from the Southern Cross near Cape Adair, Victoria, and it having been arranged that the steamer should leave them there with full equipment of every kind, and should return for them early in 1900.

## FROM HEART DISEASE.

Ex-United States Senator Gibson, of Maryland, Died at His Brother's Residence in Washington.

Washington, April 1.—Ex-United States Senator Chas. H. Gibson, of Maryland, died at 2 o'clock Saturday morning from heart disease at the residence of his brother, Lieut. Gibson, of the navy in this city, where he had resided since his retirement from the senate. Friday night he visited the Metropolitan club and went to his home about 10 o'clock. He complained of feeling unwell, but as he had not been in good health for some time this did not cause any alarm. His condition grew worse, and at 1 o'clock a physician was called. He sank steadily and died an hour later. He leaves a widow but no children. No arrangements have yet been made for the funeral, but it is probable that his remains will be taken to Centerville, Md., and interred by the side of his father.

## Peacock Reaches Pittsburgh.

Pittsburgh, Pa., March 31.—A. R. Peacock, vice president of the Carnegie Steel Co., who made the record-breaking trip across the continent, arrived here on the regular Pittsburgh, Ft. Wayne & Chicago train from Chicago. He gave up the special train at Chicago, and consequently made slower time between that city and this, but his entire journey from Los Angeles here occupied but 72 hours and 30 minutes. Mr. Peacock refused to tell why he made such a hurried trip home, and the only surmise is that his presence is essential at the meeting of the reorganized Carnegie Co.

## Meeting of Municipalities.

## A MOTHER'S STORY.

Tells About Her Daughter's Illness and How She Was Relieved—Two Letters to Mrs. Pinkham.

"Mrs. PINKHAM:—I write to tell you about my daughter. She is nineteen years old and is flowing all the time, and has been for about three months. The doctor does her but very little good, if any. I thought I would try Lydia E. Pinkham's Vegetable Compound, but I want your advice before beginning its use. I have become very much alarmed about her, as she is getting so weak."

"Mrs. MATILDA A. CAMP, Manchester Mill, Macon, Ga., May 21, 1899.

"DEAR MRS. PINKHAM:—It affords me great pleasure to tell you of the benefit my daughter has received from the use of Lydia E. Pinkham's Vegetable Compound. After beginning the use of your medicine she began to mend rapidly and is now able to be at her work. Her menses are regular and almost painless. I feel very thankful to you and expect to always keep your Vegetable Compound in my house. It is the best medicine I ever knew. You have my permission to publish this letter if you wish, it may be the means of doing others good."

## HE WAS AGREEABLE.

Would Let the Old Uncle Shoot if He Found Him in Such a Position.

This young fellow is engaged to a pretty Detroit girl, but they don't care to publish the fact until after Lent. This disturbs an irascible old uncle of hers, who has a daughter of his own, too much after his own style to be a favorite. He took it upon himself to send for the young man the other day.

"Are you going to marry that niece of mine?" he asked, sternly, when they were alone in the inner office.

"Pardon me, sir, but I must decline to answer. She has a father and a mother, and I'm on good terms with them. I fail to see that it is your affair."

"There's a whole lot that you fail to see, young man. I'm really the head of our family, and I'll not shirk my duty. Her parents are a couple of chumps. Are you or are you not engaged?"

"You force me to say, sir, that it is none of your infernal business and that you are just what I heard you were, a sour, cross-grained old curmudgeon."

"See here, sonny, I'll not bandy words with the likes of you, but if you had been going with my daughter as long as you have my niece, I wouldn't do a thing but put a revolver to your head, informing you that if you didn't marry her I'd shoot."—Detroit Free Press.

## WHAT ALABASTINE IS.

Alabastine is the original and only durable wall coating on the market. It is entirely different from all kalsomine preparations. Alabastine is made ready for use in white or fourteen beautiful tints by the addition of cold water. It is put up in dry powder form, in packages, properly labeled, with full directions on every package. It takes the place of scaling kalsomines, wall paper and paint for brick, wood or canvas, and a child can brush it on.

## WHAT THEY REALLY SAY.

Husband and Wife at the Theater Who Appear to Be Engaged in Conversation.

A man and wife enter the theater. As soon as they are seated and she digs around for the hat pin and removes her hat they look at each other smilingly and seem, to onlookers, to be carrying on an animated conversation. Here's what they're really saying:

Husband—Your hair's crushed and plastered down in front like a dog's barber's. Can't you give it a swipe that'll do?

Wife—Unreasonable thing! How can you expect me to have my hair all fluffy and nice as soon as I take off a heavy treader hat that comes down over my eyes?

"Well, give it a couple of dabs, anyhow. Looks now as if you'd been making a high dive off a—"

"There—now does it suit your lordshipship?"

"Well, it isn't as dinky as it was. What's become of that—what-you-call-it—that rat thing you got to put under your front hem awhile ago? That made it stick up some, anyhow, and—"

"The dog ate it up, and it was too warm, anyway. My, what a faithful haircut your barber gave you to-day! Makes you look like a Russian moujik! Don't you think you'd better change your barber?" etc.—Washington Post.

Birds of Passage.  
"No, I do not make friends as easily as I used to with my fellow-travelers," said the man who was relating European experiences. "It is not because I feel less sociably inclined, but because of the cold setback I received at Gibraltar. In the hotel office one morning I entered into conversation with an Englishman and woman who seemed to me to be the right sort. They did not meet my friendly overtures with the usual 'Oh!' and an English stare. On the contrary, they seemed anxious to become acquainted with me, and soon we were chatting pleasantly. I congratulated myself upon my good fortune in falling in with such agreeable people, who were almost nice enough to be Americans. We discussed Gibraltar and were just planning a sight-seeing expedition for the following day when one of the hotel waiters thrust his head in the doorway and said: 'The missus wants the both of yez.' My new-found friends were the maid and man servant of the duchess of Cleveland, Lord Rosebery's mother."—Detroit Free Press.

The Ideal Man.  
There is much rivalry between the various colleges as to which will produce the ideal man. By this they mean a vigorous, honest, intellectual man, who will make the world better for having lived. Health will demand first consideration, for upon that depends the man's achievement. Hostetter's Stomach Bitters will keep the bowels regular and the stomach healthy by curing all stomach disorders. It also prevents malaria, fever and ague. Try it.

Feminine Consistency.  
Mrs. Greene—They do say that Mr. Slyder gambles. Isn't it awful?  
Mrs. Gray—I should say it was. Why, it's almost as bad as sailing. If he wins, he robs some other man; if he loses, he robs his family.

"At any rate, it is terribly wicked. By the way I forgot to tell you I won the first prize at the whist tournament last night—a beautiful silk cup."

"Oh, you lucky woman! How I envy you!"—Boston Transcript.

## PERUNA PROTECTS OUR HOMES.

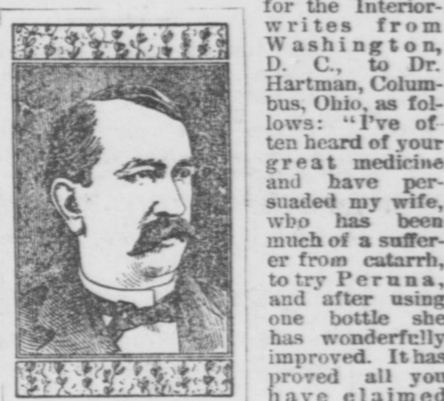

The Roberts Family, of Falls City, Neb., Are Healthy and Happy—A Rare Sight in These Days. They Say, "We Think Peruna Is The Greatest Medicine On Earth."

No man is better known in the State of Nebraska than Mr. Carl T. Roberts, contractor and mason. A typical American—active, shrewd and full of business sagacity. He is not only a provider for his family, but a protector. In a recent letter to Dr. Hartman he writes, among other things, as follows:

"Our boy, James, had the membranous croup, and repeated attacks of lung fever. Our boy, Charlie, was also subject to repeated attacks of pneumonia and pleurisy. Our third boy, John, was subject to fever and ague (malaria) and liver trouble. Your remedy, Peruna, cured my boys entirely, and now I have three of the healthiest boys in the State of Nebraska, which I attribute to your medicine. My wife had a stomach trouble which has been greatly relieved by your remedy, Peruna, for which I am still taking it. We think it is the greatest medicine on earth." C. T. Roberts, Falls City, Nebraska.

Hon. William Youngblood, Auditor for the Interior.

Hon. William Youngblood.

dicted with catarrh." Peruna has become, in a multitude of households, absolutely indispensable.

Mr. T. G. Walker, Carneiro, Kansas, writes: "It is with pleasure that I report that I am better than I have been for many years. I believe Peruna is without a doubt the best medicine that ever was used in a family. It has cured my nervousness, with which I have been afflicted for a great number of years."

It is a fact of ever-increasing astonishment that so many otherwise sensible and provident people will, for the neglect of so simple a precaution as to have a bottle of Peruna at hand, bring upon themselves the needless suffering and foolish expense that a practitioner of medicine is forced to witness every day.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and cure of these affections, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is the household safeguard.

## WHAT "KALSOMINES" ARE.

Kalsomines are cheap and temporary preparations, manufactured from whitening, chalks, clays, etc. They are stuck on the walls with decaying animal glue. Alabastine is not a kalsomine. It is a rock-based cement, which sets, and it hardens with age. It can be re-coated and re-coated without having to wash and scrape off its old coats. Alabastine is utilized to a great extent in hospitals, as it prevents the accumulation of dirt and the congregating of disease germs, being disinfectant in its nature.

## CHURCHES AND SCHOOLHOUSES.

The interior walls of churches, schoolhouses and all public halls should never be coated with anything but the durable and pure Alabastine. So evident has this fact become, that hundreds of tons are used annually for this work. The genuine Alabastine does not rub or scale off. It is cleanly during the long period of its usefulness. Every owner of a building should use it. Ask your paint dealer or druggist for card of hints, and write for free copy of our interesting booklet to Alabastine Co., Grand Rapids, Mich.

## REJECT THE "JUST AS GOOD."

The dealer who tells you that he can sell you the "same thing" as Alabastine or "something just as good," either is not posted or is trying to deceive you. In offering something he has bought cheap and is trying to sell on Alabastine's demands, he may not realize the danger to himself as well as to you. Beware of all new substitutes. Dealers risk a suit for damages by selling and consumers by using an infringement. Alabastine Co. own the right to make and sell wall coatings adapted to mix with cold water.

## Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last little scab dropped off. Ten years have elapsed, and not a sign of the disease has returned."

R. F. Williams, Gillsburg, Miss.

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.

**S.S.S. For the Blood**  
(Swift's Specific) is the only blood remedy guaranteed Purely Vegetable. All others contain potash and mercury, the most dangerous of minerals. Books on Cancer and blood diseases mailed free by Swift Specific Company, Atlanta, Georgia.

By means of the endless chain letter system and other plans, money for the Goebel monument fund is being collected rapidly. The woman's committee is far outstripping the main committee, which is made up of men. It is estimated that the women's sub-committees have raised nearly \$10,000 which, with \$5,000 in the hands of the men, swells the sum to a total of almost \$15,000.

### Kentucky's Fruit Prospects.

H. F. Hillenmeyer, the reliable nurseryman, of Lexington, says that the fall and winter have been very favorable to the fruit interests in Kentucky and he looks for abundant yields of apples, pears, plums and cherries. Peaches have been injured, and strawberries and raspberries may not be up to the average, but blackberries will be very plentiful. Grape vines were never in better condition and can be relied on to yield in fullest measure.

### Question Answered.

Y-s August Flower still has the largest sale of any medicine in the civilized world. Your mothers, and grandmothers, never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sold by dealers in all civilized countries. oct-27-ly

Mrs. Calvin Zimmerman, Milesburg, Pa., says: "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption. At Brooks's.

W. H. Shipman, Beardlev, Minn., under oath, says he suffered from dyspepsia for twenty-five years. Doctors and dieting gave out little relief. Finally he used Kodol Dyspepsia Cure and now eats what he likes and as much as he wants, and he feels like a new man. It digests what you eat. W. T. Brooks.

"No family can afford to do without One Minute Cough Cure. It will stop a cough and cure a cold quicker than any other medicine," writes C. W. Williams, Sterling Run, Pa. It cures croup, bronchitis and all throat and lung troubles and prevents consumption. Pleasant and harmless. W. T. Brooks.

## Jones Chain Mower.

ONE Of the leading Implement Journals of America says editorially of the Jones Chain Mower: "The Plano Manufacturing Company, Chicago, is distancing all competitors with its popular Jones Chain Mower. It is probably the lightest draft and longest lived mower made, and is everywhere taking the lead over the old type of geared mowers. It is a recognized fact that the most expert mechanical engineers are abandoning cog wheels and adopting the sprocket and chain where direct power with the least friction is required. The most striking example of this is the use of sprocket and chain power on the great Ferris wheel. It is also used on mammoth ditching machines, traction engines, etc. This, beyond a doubt, proves its strength. Where speed and light running are required, the use of sprocket and chain is cited on bicycles. These are scientific facts which cannot well be talked down by competitors of the Jones Chain Mower." For sale by W. F. PEDDICORD, Centerville, Ky.
